

Liquid Formulation Development Facility at Piramal Pharmaceutical Development Services (PPDS) Pvt. Ltd, Ahmedabad

Ahmedabad, India May 10, 2013: A major mile stone in enhancement of site capability was reached with creation of new Liquid Formulation Development (Non GMP) facility at PPDS, Ahmedabad. The facility has the capability to develop syrups, solutions, suspensions and emulsions.

Detailed design reviews were carried out by site teams to build wide range of technical capabilities in to the facility. GMP and safety aspects have been given utmost importance with participation of QA and EHS teams in the design stage.

Risk assessment was carried out to identify and mitigate the risks right from design stage. A detailed guideline consisting of cross contamination control strategy has been issued for this facility. Clients were informed about the creation of this facility based on requirements of Quality agreements.

The facility is equipped to handle high potency/hazardous materials. Appropriate controls have been provided in this regard and include Isolator, entry-exit controls, equipment & material controls, environment controls, waste disposal etc.

The facility is expected to give a big boost to the site business.
